RE: Denit Property

Dear Mr. Benning:

This letter serves to confirm that the bald eagle nest that formerly occurred on the Denit property in Montgomery County no longer occur on the property. The pair of bald eagles relocated their nest to the Howard County side of Triadelphia Reservoir in 1993 and have continued to nest there. Given that the Denit property nest has been abandoned for three years and the pair is nesting elsewhere, no restrictions are necessary to protect the old nest site on the Denit property.

Thank you and your client, Security Trust, for working towards accommodating the bald eagles in your subdivision design.

Sincerely,

Glenn D. Therres, Supervisor
Wildlife Diversity Program
