Summary

- Section 50.4.1.E of the Subdivision Regulations and Section 59.7.3.4.C of the Zoning Ordinance generally states that Preliminary Plans and Site Plans applications must be scheduled for a public hearing within 120 days after the date an application is accepted.
- Applications for Preliminary Plan 120220050 and Site Plan 820220090 were accepted on June 15, 2022, which established a Planning Board date no later than October 13, 2022. On October 18, 2002, the Director granted a 30-day time extension until November 10, 2022. On November 10, 2022, the Planning Board granted a second time extension until January 27, 2023.
- Related applications for Preliminary Plan Amendment 11982120A and Site Plan Amendment 81982092A were accepted on August 9, 2022, which established a Planning Board date no later than December 8, 2022. On November 17, 2022, the Planning Board granted a time extension until January 27, 2023, which created a concurrent review period for the related applications (Preliminary Plan 120220050 and Site Plan No. 820220090).
- The Applicant is requesting a three-month extension, until April 27, 2023, to allow additional time to address various agency comments including State Highway Administration (access, ROW, internal and external roads), Fire and Rescue, Housing and Community Affairs, and further revisions to the lotting/unit types allowed under the R-60 optional method, also to allow time to submit/present modified plans at the monthly meeting of the HOC Board prior to resubmittal.
- Staff recommends APPROVAL of the extension request.

Supplement to Regulatory Extension Request

This supplements the justification for the requested extension of the Planning Board public hearing date included in regulatory extension form dated January 5, 2023. The Applicant is seeking an extension of a maximum of three (3) months to allow for final coordination with M-NCPPC staff, Montgomery County Department of Permitting Services (MCDPS), and Montgomery County Department of Transportation (MCDOT). Given that these development applications represent Housing Opportunities Commission of Montgomery County's ("HOC" or "Applicant") first design, planning and entitlement effort at implementing missing middle housing typologies, the ultimate lotting and building design proposed necessitated substantial agency coordination. The layout for the project has continued to evolve through careful coordination with M-NCPPC staff, MCDPS and MCDOT over the last several months. The Applicant is now in a position where it can confirm the final proposed lotting and unit layout for the project. With this important milestone reached in the last several days, the Applicant intends to fully and finally confirm with agency staff that the project layout satisfies all applicable design standards. The Applicant's progress to this stage in the design process also allowed for it to submit a stormwater management concept plan to MCDPS, which must be approved prior to the Planning Board's action on the above-referenced applications. The Applicant is seeking up to three (3) months to ensure that M-NCPPC, MCDPS, and MCDOT have sufficient time to review and comment on final application plan submittals in the next several weeks. Based upon the foregoing, the Applicant respectfully requests approval of the above-referenced extension request.
